ACADEMICS

At the middle school level, students have the opportunity of taking classes in Reading, Mathematics, Science and Technology daily. Other subjects such as Social Studies, Spanish, Art, Music, Physical Education and Health while not daily are embedded in student schedules throughout the week. Additionally, students may also enroll in an elective class of choice provided there is no need for academic remediation. Middle school students have the opportunity to take challenging Mathematics courses beyond their grade level provided they demonstrate readiness through multiple conforming data sources. Students in middle school may earn up to 4 high school credits prior to entering high school.

At the high school level, students who have not already, begin to earn credits towards graduation. Student will need to earn at least 21 high school credits and pass four assessments in Mathematics, English, Science and Government to graduate. Additionally, although more is encouraged, students will also need at least twenty-four Service Learning Hours to graduate. High school classes meet every other day for a total of 225 minutes per week. Based on CMIT South MS/HS bell schedule, students have an opportunity to earn seven high school credits every school year. At this rate, students are positioned to complete most of their credit requirements by the end of their junior year. This allows students to pursue other interests such as Dual Enrollment, Advanced Placement courses, Internship etc at little or no cost.

ASSIGNMENTS: During the course of instruction and beyond, students are provided opportunities to practice current or previously taught skills. Students receive feedback/review on these assignments from teachers collectively or individually. Some of these assignments are entered into PGCPS student information system known as Schoolmax as grades. Teachers have the responsibility of entering graded assignments in Schoolmax weekly. These assignments may be entered as homework, classwork or assessments. Students and parents can access Schoolmax anytime to review student grades and attendance records. All assignments are expected to be submitted by due date specified. Late assignments will not receive credit. Students can expect to have 2 to 3 hours worth of homework daily. Homework assignments for any class should not exceed 30 minutes a day. Students/parents may appeal to their teacher if they find that homework is routinely exceeding this time allotment. If unsuccessful in this appeal, such can be escalated to the grade level administrator. Homework assignments will be posted on Edmodo or provided to students in class. Homework posted on Edmodo will be posted by 3:00pm if due the next day. If there are no homework assignments on any given day, teachers will post such announcement on
Edmodo as well. Student are expected to check Edmodo daily for assignments and announcements. All students must join the Edmodo groups for all courses they are enrolled. Student may request Edmodo code from their teachers to join. Parents are also expected to follow their students on Edmodo by joining Edmodo using the code found on the student page.
