Period 2	English	Mathematics	English	Mathematics
Period 3	Science	Social Studies	Science	Social Studies
Period 4	Technology	PE/Health	Technology	PE/Health
Period 5	Spanish	Art	Spanish	Art

# Hybrid Learning

In the hybrid model of learning, the school's student population is divided into two, with half (50%) of the student population coming to school on Mondays and Tuesdays while the second half (50%) come to school on Wednesdays and Fridays. Students will participate in synchronous or asynchronous learning on the days they are present in the school building.

Students will have a class on Wednesday first period, Science. Wednesday is a school day like any other, although you have a live class on this day. You are expected to continue to complete assignments.

When students are in the school building, students participate in additional face-to-face instruction with their teachers. The AA-BB-day models for middle and high school schedules will be utilized. Middle and high school students will continue with the five period day schedules. Some program changes may have to attend classes together due to external factors such as professor availability.

Monday A day	Tuesday A day	Wednesday	Thursday B day	Friday B day

# Grading

- The grading policy has been updated to reflect expectations during remote and hybrid learning.
- Students will receive letter or numerical grades on specific assignments according to the grading policy.
- Teachers may collect student work via a variety of resources and apply under three categories in the gradebook - Assessment, Classwork and Homework. Corresponding weight for each assignment will be communicated on each teacher's syllabus when school begins in the fall.
- Students should submit assignments as determined by their teachers to earn credit.
- A minimum of two grades per week will be entered per week for each student for each course they are enrolled in. Teachers are encouraged to enter more grades weekly giving students multiple opportunities at academic success.

# Attendance

- **Distance Learning: Secondary School** (middle and high school) students will type in student ID numbers or other unique identifiers such as student email (name should auto-populate) in Google Form to ensure the correct student is identified as being present. There would be two different codes to use for present students.
- **Face-to-Face Hybrid Model:** Teacher will take daily/period attendance of face-to-face learners in SchoolMax.
- Teachers will use a Google Form by period to ensure timestamp of the form/student login each day.
- Student check-in is the first assignment students will have each period. An assignment will be posted on Edmodo for a set period of time and students must login and check in within that period of time.

# Attendance

<b>Face-to-Face Learners/Hybrid</b>	<b>Virtual Learners</b>
Students are expected to be in attendance for class daily and present for each session.	Students are expected to be in attendance for class daily and present for each session.

After a certain day, require students to provide an absence note in order to be considered lawfully absent.	After a certain day, require students to provide an absence note in order to be considered lawfully absent.

# **Mock Day**

**Friday, August 28th, 2020 @ 12:30pm!**

# MY SPACE

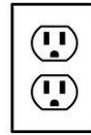

## Questions to ask yourself

- Can the space be dedicated to schoolwork for several weeks?
- Is there enough room for writing and spreading out materials?
- Is it near a power outlet?
- Do I have a my class schedule planned out?

*Computer*

*Outlet*

*Pens/pencils*

*Notebook*

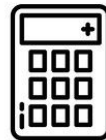

**YOUR  
LEARNING  
SPACE**
